Summary

Enthusiastic and detail-oriented Junior Python Developer with a strong foundation in Python programming and a passion for solving complex problems. Skilled in developing scripts for data manipulation, automation, and web scraping. Proficient in working with databases such as MySQL and MongoDB. A quick learner with excellent problem-solving skills and a commitment to delivering efficient and reliable solutions. Actively seeking an opportunity to contribute to impactful projects while growing technical expertise in a collaborative environment.

Technical Skills

- **Languages:** Python, Java, JavaScript
- **Web Development:** HTML, CSS, Bootstrap
- **Databases:** MySQL, Fire Base

Soft Skills

- Problem-Solving
- Team Collaboration
- Effective Communication [English, Hindi]

Internship

ExternsClub
March 2024 – April 2024
Web Development Intern

- Gained hands-on experience in web development by learning HTML, CSS, JavaScript, and Bootstrap.
- Developed a static website using modern web development practices.
- Successfully created a Static clone of a school website, showcasing attention to detail and design consistency.

Projects

Book My Pandit:

"Book My Pandit" is a mobile application built using Java for Android development, designed to help users easily book pandits (priests) for various religious ceremonies and events. The app allows users to search for available pandits based on their location, preferred ceremony type, and timing. Firebase is used as the backend database to manage user data, appointments, and pandit profiles in real-time. The application offers a user-friendly interface, secure login, and seamless booking process, making it convenient for users to schedule their religious rituals with just a few taps.
